

Dear Citizens,

Let's keep garbage disposal manners!!

1

keep one's garbage sorted

- Please divide it into burnable garbage, non-burnable garbage, landfill garbage and recyclable garbage. (Sorting of recyclable waste into plastics, beverage paper packs, PET bottles, waste paper, and empty bottles)

2

keep the place and time. garbage collection day

- Morning of the collection day is between 5:00 am and 8:00 am Please take the garbage to the designated garbage station (empty bottles are in the empty bottle post).
- If you take out garbage outside the designated place, day or time, it will be illegal dumping and you will be subject to a fine or other punishment.

3

use a designated bag

- Please put burnable garbage and recyclable plastic garbage in designated garbage bags, and other garbage in clear or translucent colorless bags.
- Designated garbage bags are sold at supermarkets and home centers.

4

amount of one-time disposal

- The weight you can hold in one hand (is 10kg). Within 3bag.
- A large amount of trash temporarily generated by moving, etc 4 bags and above will be a large amount of garbage at one time, please bring it directly to the cleaning center.

5

Other

- Rules for using garbage stations vary by region. Follow the rules of the garbage station you use.

The "garbage sorting application" has a function that informs you of the collection day, and the list of sorting and taking out of garbage .
